MICHAEL W. FRERICHS**

**Investment Policy Statement for the
Bright Start College Savings Program**

Effective November 15, 2022

State of Illinois
Office of the Treasurer
BRIGHT START COLLEGE SAVINGS PROGRAM
INVESTMENT POLICY STATEMENT
Effective: November 15, 2022

1.0 Statement of Purpose of Investment Policy

The purpose of this Investment Policy Statement (the “Policy”) is to assist contractors retained by the Office of the Illinois State Treasurer (the “Treasurer”) to provide services related to the management of the assets of the Illinois College Savings Pool (the “Pool”) that are contributed to the Bright Start College Savings Program (the “Program”) and to assist the Treasurer in evaluating the performance of such contractors by:

- Describing the Treasurer’s investment objectives;
- Providing general guidelines for the investment of assets of the Program;
- Describing the Treasurer’s long-term investment strategy;
- Describing the process of evaluating the performance of employees or contractors that provide investment management services to the Program;
- Describing the Treasurer’s objective to include sustainability factors within the investment decision process; and
- Specifying the responsibilities of any contractors that provide investment management services to the Program.

This is the official Policy of the Program. Deviation from this Policy is not permitted without prior, explicit, written permission from the Treasurer.

2.0 Establishment and Authority of Entity

The Program has been established as part of the Illinois College Savings Pool, and is intended to qualify as a qualified tuition program in accordance with Section 529 of the Internal Revenue Code of 1986, as amended. The Program was established to provide families with an opportunity to invest toward future college education expenses.

3.0 Investment Philosophy

The Treasurer has adopted a long-term total return strategy for the Program and its investments. To achieve the Program’s objectives, investments shall be diversified so as to minimize the risk of loss. While some asset classes may experience short-term and intermediate-term volatility, their long-term return assumptions justify their inclusion. A long-term focus on investment results as well as prudent diversification across financial markets will be the primary risk control mechanisms.

In its investment strategy, the Treasurer relies on prevailing financial theory, which currently utilizes a long-term diversified asset allocation strategy. A prudently allocated investment program possesses a significant level of diversification, which produces risk reduction. In terms of impact, diversification shall be considered along the following lines: (1) asset classes (stocks, bonds, cash, etc.); (2) geography/country; (3) industry; (4) maturity; and (5) duration.

Contributions to the Program will be directed to one or more of the available Portfolios, Age-Based, Target, or Individual, (the “Portfolios”), each composed of a designated mix of investments or an individual investment fund. The determination of the investment parameters of each Portfolio shall be made by the Treasurer and shall take into account the financial characteristics of the investments in the Program. The investment parameters will also give due consideration to the fact that the investment horizon for participants will vary from a few months to over 18 years.

The Treasurer will review the investment performance of each Portfolio at least quarterly and shall review this Policy at least annually.

The holdings of the Program and the Portfolios may be divided into the following broad asset categories:

- A. Short-Term Investments;
- B. Fixed Income Investments;
- C. Real Estate Investments;
- D. Domestic Equity Investments; and
- E. International Equity Investments.

The Treasurer will establish reasonable guidelines for each Portfolio, specifying (as applicable) limits on asset and asset class exposures, risk constraints and investment return objectives. While the investment parameters offered under the Program are developed by the Treasurer, participants bear the risk of investment results. Individual participants who seek investments materially different from those offered may wish to select an investment alternative outside of the Program.

Section 30 of the State Treasurer Act (15 ILCS 505/30) declares that it is the policy of the Treasurer to promote and encourage the use of businesses owned by or under the control of qualified veterans of the armed forces of the United States, qualified service-disabled veterans, minority persons, women, or persons with a disability (“MWVD Persons”) and sets forth the aspirational goal of directing 25% of the total dollar amount of funds under management, purchases of investment securities, and other contracts to businesses owned by or under the control of MWVD Persons. As such, consistent with achieving the foremost investment objectives of the Treasurer set forth herein, the Treasurer will endeavor to identify and evaluate investment managers that are more than 50% owned and/or managed by MWVD Persons.

Pursuant to the Illinois Sustainable Investing Act (30 ILCS 238/1 et seq.), the Treasurer shall prudently integrate sustainability factors into its investment decision-making, investment analysis, portfolio construction, risk management, due diligence and investment ownership in order to maximize anticipated financial returns, minimize projected risk, and more effectively execute its fiduciary duty. Sustainability analysis adds an additional layer of rigor to the fundamental analytical approach and can be used to evaluate past performance and to plan future decision-making. As a complement to traditional financial analysis, an accounting of sustainability factors provides a more complete view of risks and value

prospects that may materially impact an investment fund or portfolio company's long-term value. As such, consistent with achieving the foremost investment objectives of the Treasurer set forth herein, the Treasurer will prudently exercise investment stewardship and integrate sustainability factors within such a framework predicated on the following:

- A. **Materiality** – The Treasurer considers whether and to what extent a sustainability risk or opportunity exists that is reasonably likely to have a material impact on the financial condition or operating performance of a company, investment fund, or other investment vehicle.
- B. **Industry-Specific Information** – The Treasurer considers whether and to what extent the financially material sustainability risk or opportunity in question is relevant and applicable to individual industries.
- C. **Integration of Material Sustainability Factors** – The Treasurer prudently integrates material and relevant sustainability factors, including, but not limited to (1) corporate governance and leadership factors, (2) environmental factors, (3) social capital factors, (4) human capital factors, and (5) business model and innovation factors, as components of portfolio construction, investment decision-making, investment analysis and due diligence, prospective value proposition, risk management, and investment ownership, given that these tangible and intangible factors may have material financial impacts;
- D. **Active Ownership** – The Treasurer attentively oversees investment holdings to address sustainability risks and opportunities through the exercise of proxy voting rights and direct engagement with entities, such as investment funds, portfolio companies, government bodies, and other organizations.
- E. **Regular Evaluation of Sustainability Factors** – The Treasurer performs a recurring annual evaluation, at a minimum, of sustainability factors to ensure the factors are relevant to the evolving marketplace.
- F. **Additional Relevant and Financially Material Factors** – The Treasurer considers other relevant factors such as legal, regulatory, and reputational risks that contribute to an optimal risk management framework and are necessary to protect and create long-term investment value.

4.0 Investment Objectives

The overall investment program for the Program and, as applicable, the Portfolios provided to the participants, shall seek to achieve the following long-term investment objectives:

- A. A long-term competitive rate of return on investments that is equal to or exceeds a return of the applicable benchmarks shown in Section 7.0 hereof; and

- B. An investment program flexible enough to meet the needs of participants based upon their age or investment objective and that provides each participant with the ability to invest in a diversified portfolio to meet his or her investment goals.

5.0 Investment Responsibilities

The Treasurer is responsible for the investment policy statement, the direction of investments, and administration of the assets of the Program. In order to properly carry out his responsibilities, the Treasurer may rely on one or more contractors to assist in the administration of the Program. The Treasurer will engage and plan to rely heavily on said contractor (the “Manager”) for administrative services as well as the contractor’s pertinent investment advisor, should they retain one, for investment management services. The Treasurer also plans to rely heavily on an external investment consultant for investment advisory services. Among the current responsibilities of the Manager is the implementation of the investment strategy outlined in this Policy and the rebalancing of the Age-Based and Target Portfolios when market movement and/or cash flows cause an asset class to be outside its policy allocation bands. With the Treasurer’s approval, the Manager may retain an investment advisor to provide it with portfolio design, due diligence, and ongoing monitoring services with respect to the Portfolios and the implementation of the investment strategy outlined in this Policy. The Treasurer and the Manager shall meet quarterly to review portfolio performance as compared to the applicable benchmarks and peer group performance.

In managing the investments of the Program and the Portfolios, the Manager agrees that it will act with the skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and with like objectives.

In addition, the Treasurer may engage an independent investment consultant that will:

- Measure investment performance results, evaluate the investment program, and advise the Treasurer as to the performance and continuing appropriateness of each investment manager;
- Recommend modifications to the investment policies, objectives, guidelines, or management structure as appropriate; and
- Promptly inform the Treasurer regarding significant matters pertaining to the investment program.

6.0 Investment Parameters

Contributions will be invested in one or more of the available Portfolios, each composed of a designated mix of investments or an individual investment fund, which is appropriate for the age of the participant or the investment objective of the Portfolio. Each Portfolio may allocate assets among domestic equity, international equity, real estate, fixed-income, and/or short-term investments. The asset allocation of each Portfolio will be established by the Treasurer and managed by the Manager. The Treasurer may adjust the weighting in stocks, bonds, real estate, and cash in each Portfolio and may change the underlying investment funds within the Portfolios consistent with this Policy.

The Policy target asset allocations and benchmarks for the underlying investments within the Age-Based and Target Portfolios are shown in the following table. There is a permissible range of plus or minus 10% of the target allocation for each underlying investment fund.

*Benchmarks are subject to change as mutually agreed by the Treasurer and Manager in order to ensure that they remain appropriate for each underlying investment and consistent with industry standards.

Each underlying investment fund's return objective is to equal or exceed, over a five-year rolling period, the return of the applicable benchmark. Volatility, measured by the standard deviation of quarterly returns over that period, is expected to be similar to the benchmark. Each underlying investment is also expected to perform favorably relative to its peer group.

To the extent that the assets of a Portfolio are invested in one or more underlying investments approved by the Treasurer having investment objectives consistent with the above-noted asset allocation categories, the above-noted percentage guidelines shall be deemed satisfied. This shall be the case even if such an underlying investment’s assets may not be entirely invested in the asset class in which such underlying investment has been placed.

Individual Fund Portfolios:

To provide additional diversity and flexibility to participants the Individual Fund Portfolios and underlying investment funds the Treasurer selects will be described in the Program’s current Program Disclosure Statement and may include the following asset classes:

8.0 Minority- and Woman-Owned Portfolios

The Treasurer may also add additional Individual Fund Portfolios – for example, Minority, Woman, Veteran, and Disabled-Managed Portfolios – for participants who would like to have a more diverse set of investment options as new viable options become available. The woman- and minority-owned underlying investment funds utilized in the program shall be screened on the following initial criteria: (1) firms with at least 50% woman and/or racial minority ownership or (2) funds that have a woman and/or racial minority investment manager that makes the portfolio management decisions (*i.e.*, a minority-owned subadvisor), and (3) funds that deliver above median returns over a 3-year and/or 5-year time period. The woman- and minority-owned options provided in the program shall include relatively high scoring female- and minority-owned investment managers representing a diverse set of asset classes.

Contributions will be invested in one or more of the available Portfolios, each composed of an individual investment fund, which is appropriate for the investment objective of the Portfolio. The Treasurer may change the underlying investment funds within specially designated portfolios, such as the woman- and minority-owned portfolios, consistent with this Policy.

The Treasurer may also add additional portfolios – for example, a veteran- or disabled-owned and/or managed portfolio – as new viable options become available.
